## CRUSADE ON LOAFERS.

**Charlotte's Epidemic Broke Out in Greensboro.**

The Charlotte Observer today announces its victory in its march of invasion against the professional loafer. From its editorial columns comes the news that it has routed them, foot, horse and empty boxes, barrels and and whittling tools. It has forced the cities of Charlotte, Fort Mill, Rockingham, Rock Hill, and is moving on the enemy's camp at other points.

The Telegram suggests an unconditional surrender at Greensboro and will act as an intermediate in exchange of prisoners, if they will take our captives away.

To be plain and in earnest, we are afflicted in the same way. Everybody can get some work here if they want it. They can't get it by sitting around in other peoples way. Go around to the grocery stores, you will see a few men at each place who don't want anything, killing time—cutting off a piece of cheese, taking a cracker, eating a handful of cherries or something he don't expect to be charged for. Twenty such men are a charge on the mercantile portion of the town, and they can eat up a good bunch of stuff in a day. The amount each one takes is too small to make charge for, yet in a week it amounts to dollars.

Only this morning the writer noticed several places—at Clegg's wholesale house it was a handful of peanuts from an open sack, a banana off of a ripe bunch, a tomato out of an open crate, only a few peaches from a basket that had been opened to show a customer, but let twenty descend on them in the same way, and if any objection or remarks are made the cry is made "stingy."

Loafers have no place in an "up-to-date" business—they are in the way, and if any business man wants to entertain a friend he has the right to invite him. The Telegram wants to see every business house too busy to entertain or encourage loafers, and hopes to see the barlow knives forged into pruning hooks, and the empty boxes and barrels moved off the sidewalks and transformed into chicken coops, and the loafers enlisted in the company of Hustlers, Regiment No. 1, Brigade A No. 1, to do duty for the city.

If you can't be a cashier in a bank get a job as mortar mixer—get a move on and account to your God for every hour of daylight that he vouchsafes to grant you.

## CAMPAIGN PLANS COMPLETE

**To Invade Cuba and Attack San Juan Immediately.**

**TROOPS SAIL FOR CUBA TODAY.**

**Shafter Leads the Expedition—One Cable Still Uncut—Peace Talk is All Moonshine.**

By Wire to THE TELEGRAM.

Washington, June 13—The plans of the administration in regard to the invasion of Cuba and the sending of an expedition to Porto Rico are now assuming a definite shape. A rendezvous will be formed near Key West and it will mark the beginning of a general invasion of Cuba. If the Porto Rico campaign is not started simultaneously with the movement on Santiago it will follow immediately afterward. The third expedition to Manila will probably sail from San Francisco Wednesday. When the administration is assured that troops have been successfully landed in Cuba and the three expeditions are enroute to the Philippines then the army will be ready to capture San Juan, the capital of Porto Rico.

If overtures of peace have been made by foreign representatives abroad no word of it has been received by any of the officials here and no attention is given to peace talk which has been prominent in the papers for several days. The skirmish early Sunday morning at Guantanamo is being discussed. Despite the repeated assertions to the contrary, Cuba is not isolated as one cable still remains uncut.

## TROOPS SAILED TODAY.

Washington, June 13—The first troops which sailed from Key West today comprise seven hundred and seventy-three officers and fourteen thousand, five hundred and sixty-four privates.

## FIFTEEN THOUSAND STRONG.

Washington, June 13—A despatch says the army of invasion sailed at day-break this morning from Key West, fifteen thousand strong.

## ON TO CUBA.

Mole St. Nicholas, June 13—The expedition lead by Major General Shafter will land near Zafiora bay, which is nine miles west of Santiago de Cuba. Operations will begin immediately upon the arrival of the soldiers. Twenty-six thousand infantry, three squadrons of cavalry and a regiment of artillery are expected off Santiago by Thursday.

## WHERE AND WHEN?

Tampa, June 13—General Coppinger is in command of troop left here. It is believed he will take the rest of the expedition to its destination, Porto Rico.

General Lee's corps is not likely to be sent to Porto Rico, but will go to Cuba when the time comes to strike Havana.

## Goes to Columbia College.

Prof. C. L. Raper, who was professor of chemistry and physics at Greensboro Female College, has accepted a scholarship at Columbia College, New York city. This scholarship brings in a revenue of \$150 a year. It is now the intention of Prof. Raper to remain two years and to take a special course in history.

## JUDGE DOUGLAS THE ORATOR.

**At the Guilford Battle Ground Celebration on the 4th of July.**

Invitations to the twelfth anniversary of the Guilford Battle Ground Company, which occurs on the historic battlefield of Guilford court house July 4th, 1898, have been issued.

The committee of invitation is composed of D. Schenck, Sr., president Guilford Battle Ground company; Governor C. M. Stedman, R. R. King Esq., Hon. J. J. Nelson, mayor of Greensboro; J. A. Odell, Esq.; Robert M. Sloan, Esq.; Hon. John L. King.

The following historical facts are given:

"The battle of Guilford Court House was fought on March 15th, 1871. Cornwallis was driven by General Greene from the state of North Carolina. The Guilford Battle Ground company was organized May 6th, 1886.

"The company owns 85 acres of the battlefield. It has on it now twelve monuments of beautiful granite; two statues—one to William Hooper, one to Major Joseph Winston. There are fine avenues, numerous springs, Lake Wilfong and inviting groves. The museum, a handsome little fire proof building, containing rare and interesting revolutionary relics and paintings. The C. F. & Y. V. railroad divides the ground and has a station there."

The oration will this year be delivered by Hon. R. M. Douglas, Associate Justice of the Supreme court of North Carolina.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by C. E. Holton.

## He Belonged to the Seventh.

In quoting Mr. T. T. Brooks last Saturday in regard to the accident to Col. Harry Burgwyn in 1861, we stated that Mr. Brooks was a member of the 26th regiment, whereas he belonged to the 7th. We make this correction to keep history straight, not because Mr. Brooks would have any objection to having his name coupled with the 26th for it made a brilliant record in the "late unpleasantness."

## Having a Good Time.

Mr. W. F. Clegg, proprietor of Clegg's Hotel, this city, is now sojourning at Ocean View, Va. He writes that he is having a splendid time sailing and fishing. A note written Saturday says he caught 134 fish that morning, among them lots of hog fish. It may be said that the season is a little off for such work, but he is evidently having a "hog killing time."

The call of General Miles for intrenching tools will not, in all probability, satisfy the "On to Havana Hot-spurs" who think that the conquest of a hostile country is merely a matter of landing troops and marching so many miles a day. It is just possible that General Miles knows a little about what is necessary to carry the war on Cuban soil. He would not call for the tools unless he foresaw that he would require them; and if their use should involve a protracted campaign it will only be because such a contingency will be found inevitable.

Mr. Provan, an ex-member of parliament, writing from Glasgow to Mr. Clews, of New York, expresses the opinion that America should hold the Philippines, and adds: "I am afraid that it will not be many years until we shall have to do some joint account fighting with Continental countries for the pacification of the parts of the world which are mismanaged now." Commenting on this the Philadelphia Record says it will be time enough for that when we shall have got a clear commission to enter on the magisterial business of holding the world to keep the peace. The Cuban situation was a local question, involving the peace and quiet of the neighborhood. The regulation of mankind would be another story.

The gunboat Marietta, which made the journey round the Horn with the Oregon, occasioned something of a flutter on her arrival at Key West, her unfamiliar appearance causing her to be mistaken for a hostile ship by our gunboats, two of which prepared to open fire on her. Another such flurry occurred at Fort Monroe on Friday night last, caused by reports of the coming of a Spanish squadron, which, however, eventually shrunk to a single war ship—a German cruiser. Such frustrations are, perhaps, inevitable says the Philadelphia Record. But they would be more readily understood if they should occur among the simple minded folks of the New England coast, who dwell in the midst of such alarms. That they should happen among naval men who are supposed to keep tab on the movements of the enemy's ships—so far as the Spanish vessels are movable at all—is a curious revelation which naval critics abroad will hardly regard as creditable.

Apropos of the report that the Spanish admiral has been warned not to blow up his ships lest their value be added to the indemnity which Spain would be required to pay as a condition of peace the Philadelphia Record takes the following view: "While the Spanish squadron might be deemed to have been practically captured, and we might have an interest in its preservation intact for our ultimate use and benefit, we could at most decline to recognize the validity of the sale of the vessels by Spain to some other Power or any similar attempt to defeat our rights as captors. It would be a most extraordinary proposition to endeavor to limit the right of an enemy to destroy property which is still in his possession. If the Spaniards should be so foolish as to blow up ships which we might be inclined to accept in part payment of a war indemnity, that would be their affair."

### General News in a Nutshell.

All the calls in the regular army are sounded by bugle instead of by drum, the latter instrument being used only in concerted music. This is because a drum may easily have its head broken and is difficult to mend in the field, and it is useless when wet. A bugle gives a far clearer sound, and its calls can be heard at a longer distance.

The Iowa Health Bulletin publishes, among many similar specimens of letters written by "doctors of medicine" in support of applications for pensions, the following:

"I certify I treated the said soldier from 1888 to Date—formerly his stumk tub was joined to his nervous system, but now it air rotted off, costing great expending and hard of breath.

Your Obedt. servant  
M. D.

The testimony in a contest to annul the will of a deceased Maryland farmer has developed the fact that the eccentric old fellow was in the habit of digging holes on his farm for the purpose of filling them with the water of the Atlantic, so that he might empty the ocean and enable farmers to plant potatoes on its dry bottom.

The municipal employees of Charleston are of the opinion that the coming summer will be the hottest within the memory of the oldest inhabitant. This joint prediction is attributable to an edict recently issued by the mayor, who ordains that no servant of the city shall remove his coat while on duty, because he thinks that the shirt-sleeve custom has shown a lack of respect to citizens compelled to do business with public officials.

The orchid craze has struck Japan, and it threatens to outlive the famous tulip craze which prevailed in Holland several centuries ago. One variety of orchid owned jointly by three gardeners, has but eleven leaves, and its cultivators demand the fabulous price of 10,000 yens (about \$5000) per leaf for specimens. Other varieties of more frequent occurrence bring 500 yens per leaf, and sales at this figure are frequently recorded.

The enormous piercing power of the Krag-Jorgensen rifle's bullet was shown the other day at Mobile, when, during the sham battle, a ball tore through a tree trunk fifteen inches thick, struck the butt of Private Hogan's rifle, penetrated it and shattered the bone in his left leg, where it imbedded itself.

Havana's "cabbies" have little opportunity to indulge in the practices so common to those of other cities. The lamp-posts of the Cuban capital are painted in various colors—red for the central district, blue for the second circle, green for the third, etc.—and thus the "fare" knows immediately when he has passed a legal boundary, and pays accordingly.

When the second call for volunteers shall have been filled the United States will have 278,500 men under arms, divided as follows: Regular army, 62,000; volunteers, 200,000; three cavalry regiments at large, 3,000; ten infantry regiments at large, 10,000; engineers at large, 3,500.

### Blanco Sends a Report.

Madrid, June 12, 4 p. m.—The following dispatch has been received here from Captain General Blanco: "One American cruiser and two gunboats are before Havana; two are before Mariel, one at Cardenas, two at San Caisarion, none at Matanzas and Cienfuegos, and fifteen men-of-war are off Santiago de Cuba. We have no news from La Caimainero."

### News from Manila.

Madrid, June 12—A private dispatch received here from Manila, dated June 8, represents the situation there as being slightly improved. It says: "In spite of the insurrection in the province, the capital is resolved upon resistance. The spirit of the people is excellent. The defenses have been increased; fresh battalions of volunteers have not ventured to make an attack."

### The Grandest Remedy

Mr. R. B. Greeve, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It don't fail. Trial bottles free at C. E. Holton's drug store.

### THERE IS SOME DOUBT

That Carvera is Entitled to Praise in the Hobson Matter.

The Boston Pilot pays a high tribute to the bravery of Hobson and his companions in the harbor of Santiago, but praises no less Admiral Cervera, saying:

"It is hard to say which side behaved the more nobly in this adventure. The Spaniards should naturally have been exasperated to madness by the blocking up of the harbor. If they had fired upon and destroyed the heroes the laws of war would have been extenuated, if not justified, the act; but they chose the more magnanimous part, and proved themselves true inheritors of the old Hidalgo spirit."

The laws of war and the sentiment of all civilization would have been outraged if the Spaniards had fired upon Hobson's party while they were surrendering themselves into their hands, and, accordingly, their mere refraining from a course so cowardly and barbarous cannot be truthfully described as "noble." Moreover, we must wait for the closing of the incident before we can give to Admiral Cervera the measure of praise which the Pilot bestows upon him. Obstacles have been put in the way of an exchange of the captive Americans, and the intimation that they were confined in the Morro, where they would be subject to danger from the fire of our fleet, is possibly suggestive of painful reflections. We trust, however, for the credit of humanity, that the Spanish Admiral's conduct is entitled to all the applause of the Pilot.—New York Sun.

#### Little Walter Elam Dead.

The Telegram regrets to chronicle the death of little Walter Elam, the 19-months old son of Mr. and Mrs. Harper J. Elam, which occurred at the home on East Market street about one o'clock yesterday morning. The funeral was conducted from the home at six o'clock last evening by Dr. Weaver assisted by Dr. Smith, and interment made in Green Hill cemetery.

The death is a peculiarly sad one. The family were just preparing to move into their new and lovely home on Forbis street, and in arranging things for the removal, Mrs. Elam had placed the bottle of carbolic from which little Walter drank to his death, in his reach. The fond mother is distracted with grief.

The sorrowing parents have the sympathy of the entire community. There is comfort for them in the knowledge that while there is a gloom over their pretty earthly home the curtains of the celestial city are held back by a baby angel, little Walter's face is peeping over heaven's battlements and a chubby hand is beckoning to father and mother, brothers and sisters.

### THE POSTAL TELEGRAPH.

Arranging to Extend its Line and Open an Office Here.

The citizens of Greensboro and of the state generally will be glad to learn that the Postal Telegraph Cable Company are arranging to put its line of telegraph through North Carolina, and open offices in Greensboro and other points along its line.

Col. J. R. McIntosh, general counsel for the company, was here Saturday and associated with him as state's counsel for the company Messrs. Boyd and Brooks, of this city. These gentlemen at once prepared and filed in the Superior Court a petition against the Southern railway asking for the condemnation of an easement along and over its right of way from the state line near Danville, Va., to Charlotte, N. C., and from Greensboro to Raleigh, N. C., which, when completed, will give our people complete telegraphic connection with Washington, New York, and other commercial points through Canada, Mexico, and Great Britain.

A competing line, such as the Postal Telegraph Cable Company has proven itself to be in those cities where it is now being operated, cannot fail to be of great importance to the business of Greensboro and the state at large, while at the same time its construction need not be of damage to the Southern railway's interest, as it only asks for the right to plant posts along its right of way in such a manner as to in no wise interfere with the railroad's interest.

#### As to the Nuisance.

Mr. Editor—My attention has been called to a complaint in your issue of Saturday last in reference to certain persons resting on the coping around the post-office building. You term this a great nuisance and state that you feel certain that the postmaster will not permit its continuance. I desire to say that I have no authority whatever in or about the building save that portion occupied by the force in my office. I am sure however that if there exists any practice that approaches a nuisance it will be promptly corrected if called to the attention of the proper authorities. Disclaiming any intention of appearing curt in my demeanor toward you, or in any manner making a thrust at you I feel it my duty to say that in dealing with this question the conduct of the individual who sits on that wall and not the color of his skin should determine whether or not he be allowed to rest there. Tyre Glenn.
